PRICE TWO CENTS

Speaker Criticizes Methods Used In Instructing English

Professor Clarke of McGill Addresses Teachers' Meeting

FIFTH CONVENTION

Two Hundred Million People Speak English Language Fluently

The English language is suffering from an inflammation of the vowels and unluckily for the pupils, English is yet being taught as a foreign language according to an address on "Oral English" given at the fifth annual convention of the English-speaking teachers of the Montreal Catholic School Commission by Professor Fred Clarke, chief of the Department of Education of McGill. The meeting was held at the Thomas D'Arcy McGee High School yesterday morning.

Professor Clarke said that, in his opinion, teachers are more concerned with the spelling of words, forgetting that expression and pronunciation are highly important to maintain the integrity and beauty of a language.

As you speak, so you are, and as you continue to speak, so you will be, is a motto which will always stand, in the opinion of Prof. Clarke. The preservation of the English language is now facing a serious crisis.

Secondary Language
More than 200,000,000 people now speak fluently, or at least, they think they do. It has become a secondary language to millions of people. But with this geographical extension, English has taken rather a downward trend. Its fate is determined by millions and its destiny appears very unsafe.

Referring to motion pictures and radio, the speaker thought they were doing their share in its downfall.

He added that he thought that English as pronounced on the North American continent has a great many favourable points.

The other speakers included the Honorable Cyrille Delage, superintendent of education of the Department of Education of the Province of Quebec.

PLAYER'S CLUB

There will be a class in Voice Production in the Player's Club Room at 4. All interested are urged to come. Contrary to yesterday's notice there will be a rehearsal of "The Devil's Disciple" today. Miss Dickenson at 3.00 and Act I at 3.30 Friday, Act 2 at 3.00. Will all the men on the scenery crew please report at the Club Room at 2.15.

THE WORKSHOP

"Spreading the News"
2.30—Entire Cast.
9.00—Mr. Hepburn.
10.00—Mr. Webber.
Will the following please be in the Players' Club Room at 2 p.m.: B. Mally, L. MacGregor, C. Cam, L. Davis, S. Stevenson, D. Chalk, M. Langstaff.

NOTICES

CHEMICAL INDUSTRY CLUB
There will be a meeting of the Chemical Industry Club in Room three of the Chemistry Building at 4.30 o'clock this afternoon. Dr. Allen will speak on "Synthetic Perfumes." All interested are invited to attend.

McGILL CONSERVATORIUM CLUB
The McGill Conservatorium Club will open for the 1934-35 term on Friday, November the 2nd at eight p.m. An interesting evening has been planned. All students, past and present, are invited to come and bring their friends.

CALL FOR NOMINATIONS
For the office of assistant secretary of the Engineering Undergraduate Society. The nominee must come from second year, and the nomination sheet must be signed by at least ten Engineering students of any year. Nominations will close on November the ninth.

INTERCOLLEGIATE DEBATING TEAM TRYOUTS, R.V.C.
Common Room 3 p.m. Thursday, Nov. 1st. "Resolved that hazing should be restored at McGill."
Judges: Isobel Dawson, Alma Howard and Beatrice Klineberg.

(Continued on page 2)

Noted Educator Arrives Tomorrow

Mr. Raymond Currier to Remain at McGill For Six Days

FIRST OF SERIES

To Speak at Chapel Service and to Attend Open House Gathering

Mr. Raymond Currier, celebrated for his interest in, and guidance of, the activities of college students, will arrive in Montreal tomorrow. While here, he will be the guest of McGill for six days. This is the first of a series of visits to Eastern Universities that Mr. Currier will make throughout the month of November.

Mr. Currier has his B.A. and M.A. from Harvard. For almost ten years he was on the staff of Judson College, Rangoon, Burma. After a year of home service with an American mission board, he went to the Indiana State University as Y.M.C.A. secretary. Following this, he was for four years the Associate Professor of English at Franklin College, Franklin, Indiana. He is at present the Educational Secretary of the Student Volunteer Movement and an Editor of "The Intercollegian" and "Far Horizons."

Worked With Students

Most of Mr. Currier's work has been among college students and this qualifies him as an interpreter of some of the difficulties that are facing students in America and abroad. He has a deep insight into present day conditions and the problems of world co-operation.

Mr. Currier will be the speaker at the Chapel service, Sunday, November 4, and following that he will be at Open House. He will also be the speaker at several informal meetings and teas.

Sociologists Meet

Professor Hughes to Speak on Racial Conflicts

At the initial meeting of the Sociological Club tomorrow at 8 p.m. in Strathcona Hall, Professor Hughes will speak on the subject, "Racial Conflicts and Contacts in the Present-Day World," and will try to bring out the importance of this problem in modern society.

The secretary-treasurer of the Club, Sonnette Ross, is anxious for a "big turnout of young blood" to pep up the future activities of the Society. The executive extends a hearty and urgent invitation to all students interested in social relations, and promises an interesting and varied line-up of topics for discussion.

TOUGH GUY CHEWED NAILS

Birmingham, Oct. 9.—A middle-aged man, a patient in a Birmingham hospital complained that he felt a slight pain. He was X-rayed, then operated upon. The surgeon removed from inside him—
Twenty-three iron screws and nails (assorted sizes), half a dozen tin-tacks, two zinc washers, a few iron staples, the top of a metal container, and five odd pieces of metal. Altogether they weighed more than a pound.

Said this human ostrich to the hospital officials later: "I started about three months ago. I was just like a magpie. Anything bright and glittering fascinated me."
"The iron screws had a clean satisfying taste, and somehow I developed a habit of sucking and swallowing them."
The patient is making an excellent recovery.

Today:
2.15 p.m.—Records II, Leader, M. G. Brooks.
6.00 p.m.—Cabinet Meeting.

Friday:
5.00 p.m.—Choir Practice, Divinity Hall Chapel. Any student who wishes to participate in the student choir for the Sunday evening Chapel Services is asked to get in touch with the S.C.M. office, or to attend this practice. Sopranos are particularly needed.
King Gordon's Group will meet as usual. The guest leader this week will be Mr. Raymond Currier.

Saturday:
1.30 p.m.—The Cabinet and Committee members will meet with Mr. Currier.

FEDERATED CHARITIES RETURNS

Faculty	Objective	Collected To Date	Same Date Last Year	P.C.

Federated Charity Drive Behind Former Schedule As Undergraduates' Campaign Lags While Metropolitan Appeal Rallies

New Managerial Board Provides Jobs For Frosh

50 "Compet's" Wanted From Freshman Ranks

THE managerial system at McGill has been revised and the Board announces that the regular course for all Compet's is about to commence. The first meeting will be called in the Union Grill Room next Wednesday at five o'clock. It is expected that about fifty freshmen will put in an appearance.

The new managerial system by which all Athletic Managers in the University will be controlled will consist of three classes of Managers. Freshmen will be enrolled in the "Compet" class. If they follow the course of instruction set by the Board and pass the necessary tests they will be allowed to help manage one of the winter sports this year. At the end of the season if their work has been satisfactory they will become Assistant Managers and in their third year will be made Manager of some sport. The Managerial Board, consisting of three men will be selected from among the Senior Managers.

The Managerial Board will have complete control over the new men and their promotion will be considered according to the amount of work they have done. The system of awards for Managers is being revised and complete details will be announced shortly.

The Managerial Board for this year as announced by the Athletic Office consists of D. Lorne Gales, William P. Sprenger and John H. McDonald. The Board takes office immediately and will conduct the Freshman Meeting on Wednesday.

Coeds To Organize Womens' Glee Club

Club to be Under Direction of Mr. Walter Clapperton

Subsidiary to the Music Club of R.V.C., a Glee Club for women students is being organized. This is an innovation at McGill and it will give the women students an opportunity to exercise their vocal cords with music in lighter vein. The Club will be under the direction of Mr. Walter Clapperton of the Conservatorium of Music. Special attention will be given to madrigals and part songs.

Provided that a sufficient number joins and attends the practices, the Glee Club will probably take part in activities of the campus, such as music concerts, etc. The Club will meet every Wednesday afternoon at two o'clock in the R.V.C. Common Room.

At the present time there is a special demand for first and second sopranos and altos. Anyone wishing to join should put her name on the lists which will be posted in the R.V.C. and in the Common Room of the Arts Building.

Societe Francaise Meet
Charades, presented by the different years, will feature the first meeting of the Societe Francaise, today at 4 p.m. in the R.V.C. Common Room. There will be prizes for the two best performances.

This afternoon's gathering will be pervaded by the real French spirit, for English will be spoken. Songs and tea will conclude the program.

Committee Urges Student Body Co-operation

THE latest reports from the committee in charge of the Federated Charities Drive at McGill indicate that the Campaign is behind the mark reached on the same date last year. So far only 15% of the Undergraduate Objective has been reached. In order to maintain the record set in previous years of collecting 100% the Student Body as a whole will have to get behind this Appeal for funds.

Last evening Architecture was leading in the Interfaculty race with 68%

Committee

The following are expected to be at the Special Charities Dinner today at one o'clock in the Union Reading Room:

President, R. Malcolm Ramsay; Arts and Science, Arnold L. Johnson; Commerce, Walter Markham; Medicine, Murray McIntyre and George Lilley; Dentistry, Erol Clift; Law, Kenneth McNamee; Engineering, Jack Houghton; Architecture, H. Blachford; Royal Victoria College, Deborah Barbour; Library School, Bert Hamilton; Graduate School, Ronald Leatham; Graduate Nurses, Miss Flint; School of Physical Education, Helen MacDonald; Theology, Keith MacKenzie; Publicity, John H. McDonald.

of their objective. The School for Graduate Nurses was next with 63%. The Faculty of Arts & Science ties with Dentistry for second to last place with only 6% of the total required collected.

Unless every collector assisted by each member of the Students' Society does his or her utmost the objective of \$2000 will not be reached. It has been suggested by the Chairman of the Committee that those in the Graduate School who are not at college every day leave their contributions with Mr. Fletcher at his office in the Union. If they do this rather than attempt to get in touch with their collector the collecting will be facilitated.

Today at one o'clock in the Union Reading Room a supplementary luncheon is being held for the Committee in charge of collections. It was pointed out last evening that only the actual committee, whose names appear in the special box on this page are expected to attend. It is most important that this luncheon be well attended, pointed out the chairman, as it will be necessary to make a special drive during the closing hours of the Campaign if it is to be a success.

The Federated Charities consists of thirty-three individual charities, united for the purposes of making a single appeal and minimizing expenditure for organization. This appeal comes once a year instead of the old fashioned thirty-three appeals. Throughout the city the Charities Campaign is ahead of last year's drive and every effort will have to be concentrated on the drive at McGill during the next two days if we are to repeat the showing made last year.

SOCIETE FRANCAISE

La Societe Francaise will hold its first meeting of the 1934-35 session today at 4 o'clock in the R.V.C. Common Room.

NOTICE

Anyone driving to Kingston on Saturday and who has room for two passengers please phone PL. 7385.

Masquerade Will Follow Production Of German Play

FOLLOWING the German play, "Die Deutsche Kleinstadt," to be produced by the "Germania" on the evening of Friday, November 16th, there will take place a masquerade dance at which it is expected that fancy dresses of a German character of any period will be worn by those attending. This announcement was made by the executive of the club as a result of a meeting held yesterday afternoon in the German Seminary Room.

Other business of the evening included the election of officers and the outlining of a general program for the coming year. The results of the elections were as follows: Ann Sweeney, President; Members of the Committee: Betty Forest, Tim Piddington, and Desmond Farrell.

The general intent of the Germania has been ever since its inception to promote the study of German culture and to provide opportunities for putting into current practice the rules and tenets of the German language, which have been academically acquired. It is a common complaint amongst those studying modern languages that the requirements of a large class do not give the average student as much opportunity for conversation as he would desire, and for the comprehension of the psychology of the people whose language he is learning. To supply this deficiency is the club's "raison d'être."

Meetings featuring an address delivered by a competent speaker on a topic of current interest, followed by a discussion, are to alternate with gatherings of a lighter mood, where there will be dancing and singing of German folk and student songs. On both occasions things will be contrived so that beginners in the use of German will benefit by the readiness of those more advanced.

Foundry Visited By Plumbers Yesterday

Pay Tour of Inspection of Canadian Tubing

Yesterday afternoon the members of the Mechanical Club made a complete survey of the plant of the Canadian Tube and Steel Products. The members of the Club met at two o'clock in the Engineering Building. There they received a short talk from Mr. Jopling, a former graduate in Engineering from McGill, who discussed and explained some of the highlights they would later see at his company's foundry.

The members of the group then proceeded to the Canadian Tube and Steel Products by car where they were taken on a tour of inspection of the industry. The students saw the entire process of the mill from the scrap-iron lying in the yard to the finished products.

During the course of the tour the members of the Club were given a first hand view of the various sections of the plant, such as the wire mill, the rolling mill, the foundry and finally the pipe mill.

Large Attendance Marked S. C. M. Hallowe'en Dance

Commerce Students Gather At Luncheon

"EXAMINATIONS" will be the topic of Dr. Stephen Leacock's address to the Commercial Undergraduate Society to be held in the Union Grill Room at one o'clock today. As there is only a limited number of tickets left all Commerce students are urged to obtain theirs at once. The price is \$0.35.

These luncheons, which are held every month, provide an excellent opportunity to foster closer relations between Upper and Lower year men and brings professors and students together in an informal manner.

Judges For Coming Debate Announced

Union Ballroom to be Scene of Contest With English Team

MANY TICKETS SOLD

Every Possible Angle of Liberalism to be Argued Out by Debaters

As the time for the International debate, between the Oxford-Cambridge and McGill teams, draws near greater enthusiasm is reported. Announcement of the judges has been made. They to be: Mr. Justice Fabre Surveyer Mr. Gower-Rees, the Venerable Archdeacon Mr. A. D. P. Heeney. The debate will be held in Moyse Hall at 8.15 p.m. Monday.

The McGill debaters, Melbourne Doig and Philip Vineberg will uphold the affirmative side of the question whilst visiting team of Robert O'Leary and Leslie Jackson will support the negative. The visitors have not yet been defeated and have won victories over prominent university teams on this continent.

Liberalism Topic
It has been learned from authentic source that the topic, "Liberalism Though It Yet Speaketh is Dead," will be discussed from every possible angle. One phase of the debate may be summed up in these words: Liberalism stands for freedom from bureaucratic control. The topic will cover all the movements which now startle the world, with a view to deciding the liberal position of freedom from the bureaucratic control, mentioned above, the position tenable at the present time when governments are altered by such governmental tides as Fascism, Communism and the American N. D.A. These movements, it is believed, intervene more and more in the lives of the citizens.

Tickets are now becoming scarce, such is the rapidity of their sale. These, by the way, may be purchased at the Tuck Shop, Bill Gentlemen's office the R.V.C. and from any member of the executive. The price is twenty-five cents.

Biological Society Discusses Genetics

Professor Huskins Speaker at First Meeting Next Tuesday

"Current Trends in Genetics" will be the subject of an address by Professor Huskins at the first meeting of the Biological Society, to be held in the main lecture hall of the Biological Building at 8.15 next Tuesday evening. A general discussion will follow the lecture.

Dr. Huskins will review the work being done in Genetics at the present time, and will discuss the mode of its application in Society. There is at the present time a tendency to overestimate the results of genetical findings and to apply them blindly in an attempt to improve the human race. The validity of such attempts will be considered in order to obtain a truer picture of what is happening in the world at the present time.

Since the study of genetics is really a product of the twentieth century there have been many revolutionary changes in the technique employed by research workers. Even the past few months have witnessed remarkable innovations. Among other things Dr. Huskins will consider these newer methods in Genetics.

Junior Prom

Gilbert Shuurman has been elected Dental representative to the Junior Prom Committee.

Strathcona Hall Scene of Traditional Festivity Last Night

Marion Parker and Bill Nellis Win Major Awards

AGAINST a background of typical Hallowe'en decorations, orange and black ribbons suspended from similar colored lamps, the floor decorated with autumn leaves, skeletons on the walls coupled with the traditional hanging apples, fifty couples, dressed in appropriate costumes, danced to the strains of Norman Jennison's orchestra last evening at Strathcona Hall. This affair, typically collegiate, was sponsored by the McGill S.C.M. Society.

Patrons at this affair were Dr. and Mrs. Naylor, Professor Hendel and Dr. and Mrs. Brooks. The position of Mistress of Ceremonies was handled by Violet Pick. Dancing commenced at 8.30 and continued till one.

Prize Winners
Following the grand march Marion Parker received the prize awarded to the person attired in the most original costume, while Bill Nellis was the man winning the prize for his cavalier costume. Ethel Liddy and Jim Patrick won the consolation prizes, dressed respectively as Minny and Micky Mouse. Two other prizes the one for recognizing one's partner after a Paul Jones, while Beth Kerr was the winner of a prize for standing on the lucky spot.

After the disposition of the prizes, refreshments were served in the Pit. Here, too, Hallowe'en color prevailed—pumpkin pie and orange ice cream constituting the major part of the refreshments. That the dance was a success can be attested by the large number in attendance.

Among the Ladies Present Were
Audrey Atkinson, Eleanor Thornhill, Nancy Allan, Margaret Stewart, Margaret Kilpatrick, Gertrude Cooke, Bernice Ashkanase, Joan Clarke, Marjorie Ellis, Marjorie Peden, Freddie Peden, Peggy Deane, Dorothy Somers, Marguerite DuBois, Francis Brown and Nancy MacKay.

The Men Present Were
Bill Gibson, Jules Lapointe, Bill Braisted, Gordy Auld, Art Mialap, S. Austin, Charles Paton, Walter Clarke, Harold Morris, Grant Lathe, Nesbit Dobson, Herbert McKinney, Bill Roxbury, Fred Owen, Ralph Carmichael, Doug Miller, Clarence McCoy, Alfred Pick, Keith Shaw, Dill Cornell.

McGill Advances In Scientific Research

Dr. Mason Expresses Satisfaction About Use of Grant

The progress of scientific research carried on at McGill University was most gratifying, according to Dr. Max Mason, president of the Rockefeller Foundation, who recently completed a tour of our institution. Scientific progress at McGill was to a good extent promoted and accelerated by grants from this organization.

Of special interest to the visitor was the item on the detection of small quantities of lead in the blood and spinal fluid. This research conducted by the neurological and physics department was given support by the Foundation to the extent of \$10,000,000.

McGill officials voiced the fact that the Rockefeller Foundation has been one of the most generous contributors of the University. Approximately \$3,000,000 have been granted to the University by this organization since the Great War.

McGill Night Near

Featured by Plays, Skits, and Informal Dance

Next Wednesday evening, the Young People's Society of Shaar Hashomayim is holding their annual "McGill Night," at which the program will be presented by various groups of students. Several fraternities and societies have signified their intention of presenting skits, playlets, or other forms of entertainment.

The program at this meeting is usually the most entertaining meeting of the Young People's Society of the year. As usual, the program will be followed by informal dancing.

PHILOSOPHICAL CLUB

There will be a meeting of the Philosophical Club next Thursday at eight o'clock in Strathcona Hall. Each speaker will be allowed five minutes to participate in a discussion of Dickinson's "Modern Symposium."

Examinations

EXAMINATIONS are funny things; sometimes we get through them, and sometimes we don't. We hear that Professor Stephen Leacock is going to speak about them today, and doubtless he will clear up in the minds of many the mystification they experienced last summer when they failed to see their names in the pass list. It is customary about this time of year to hear violent attacks levelled at the educational system which has, "as part and parcel of it such a barbarous and outlandish thing as examinations."

While we cannot confess that we are particularly enamored with them, we sometimes think that they are not so bad after all. It would be an awful effort to keep working steadily and conscientiously if we had not the fear of a definite day of reckoning to keep spurring us on to new labours and objectives. Very frequently examinations do not by any means represent the true standard of knowledge that is possessed by a student, but they act as a marker by which at least some idea of scholastic ability of the individual may be obtained. It is very seldom that a student who knows his work well, who has faithfully carried out a reasonable amount of study, and who is thus able to go into an examination with a clear conscience ever fails. Occasionally there are cases of people who are so constituted mentally and bodily that the very thought of an exam preys on them, and by the time they arrive in the examination room all their worst doubts and fears are confirmed in their own minds.

For many years now, educationalists have propounded new systems and schemes by which they would scrap exams and introduce "something new." What this something new is very few of them have ever arrived at the stage of explaining. Other persons have worked with the view of removing the objectionable features of the exam system. The honor system was introduced some number of years ago in many of the colleges in the United States — there was not only the idea of placing the student on his honor not to cheat, but there was also the psychological factor of lessening that "examination room tension," by the removal of invigilators. Just how far this last move was successful is extremely doubtful.

Any successful reform of the present system of ranking must in our opinion come as a result of the revision of the examinations system, and not as the result of tearing it down, and substituting some other means equally unsatisfactory. For example, examinations should be made far more frequent than they are at present — but they should be given during the year without warning, and consist of perhaps two or three questions not requiring more than an hour or perhaps half an hour to answer. At the end of the year a detailed examination such as we now have might be given; and the result of this and the other examinations given during the year, added together, would give a more true and a weighted average of the student's knowledge.

Democracy

AMONG all the drawbacks and objections that may be leveled at the democratic system, perhaps the one most injurious and harmful is the tendency on the part of each individual to follow the general current of thought without examination. Like the proverbial sheep, many men pursue his neighbour's path for no particular reason other than the fact that he is too lazy to indulge in a little personal reflection, to study the expediency or benefits of such popular trends of thought. The majority of us are mental parasites, and feed upon the small and often inadequate store of fact and opinion that is thrust at us from any direction whatsoever.

In a democratic country, where people are expected to offer their own decisions shaped after their own wants, very often the reverse takes place. The public speaker, the demagogue, the press, these and other similar sources of information become, in addition to their real task of edifying the populace, important forces in the swaying of the public to their own ends. With the use of oath-phrases, popular expressions and tabs and labels, they take advantage of and uncredulous folk and mould them according to their own plan or scheme. And the victims of this mass scheme are quite contented or else completely oblivious to the process which they are undergoing.

It is in the interests of the community

at large that the public be constantly warned against these attempts at fashioning them by the few who possess the reigns of power. A more educated people will gradually realize these matters for themselves, and they will be instrumental, both by practice and preaching, in cultivating a more independent and self-thinking society. It is furthermore expected that this group will emanate from the universities at large, where students given the opportunity of viewing problems from various angles, and are consequently forced to formulate strong personal opinions. This process of changing even to a certain degree the habits of peoples will no doubt be a long one, yet each individual can do his share in resisting those who try to prejudice the people by their popular methods.

SCRAP-BOOK

By Von Dubno

Dr. Johnson once attended a concert much against his will. During the violin solo his companion leaned over and remarked to the restless giant:

"That is a very difficult passage."
"Difficult do you call it, sir?" snorted Johnson.
"I wish it were impossible!"

AFFECTIONATION

There Affectionation with a sickly mien, Shows in her cheeks the roses of eighteen, Practiced to lip, and hang the head aside, Faints into airs, and languishes with pride, On the rich quilt sinks with becoming woe, Wrapped in a gown, for sickness, and for show. The fair ones feel such maladies as these, When each new night-dress gives a new disease. —POPE.

My wife is dead. Well! I shall not resuscitate her by my tears; she is well, she is in Paradise for the least, if not in a better place; she prays to God for us; she is very happy; she cares no longer for our miseries and calamities. God help those who remain. I must think of finding another wife. —RABELAIS.

Tew enjoy a good reputashun, give publicly and steal privately.

—JOSH BILLINGS.

A nice man is one who has nasty thoughts.

—MACAULAY.

We have just enough religion to make us hate but not enough to make us love one another.

—SWIFT.

A man is very apt to complain of the ingratitude of those who have risen far above him.

—SAMUEL JOHNSON.

ON AN OLD WOMAN

Mycilla dyes her locks, 'tis said,
But 'tis a foul aspersion;
She buys them black, they therefore need
No subsequent immersion.

—LUCILIUS.

HAMLET: I have heard of your paintings too well enough; God hath given you one face, and you make yourselves another. You jig, you amble, and you lip, and nickname God's creatures, and make your wantonness your ignorance. Go to; I'll no more of it; it hath made me mad. I say, we will have no more marriages. Those that are married already, all but one, shall live; the rest shall keep as they are. To a nunnery, go.

—SHAKESPEARE.

POVERTY

A beggar to the grave yard hied
And there "Friend corpse, arise," he cried;
"One moment lift my heavy weight
Of poverty; for I of late
Grow weary, and desire instead
Your comfort; you are good and dead."
The corpse was silent. He was sure
Twas better to be dead than poor.

—FROM THE SANSKRIT.

"Honesty is the best policy," but he who acts on that principle is not an honest man.

—ARCHBISHOP WHATELEY.

Do I contradict myself?
Very well then I contradict myself.
(I am large, I contain multitudes.)

—WALT WHITMAN.

If a man hear the Truth in the morning, he may die in the evening without regret.

—CONFUCIUS.

Human life is everywhere a state in which much is to be endured, and little to be enjoyed.

—SAMUEL JOHNSON.

"... freedom from romantic illusions (often called cynicism) ..."

—G. B. SHAW.

Ah! how short a time it is that we are here! Why then not set our hearts at rest, ceasing to trouble whether we remain or go? What boots it to wear out the soul with anxious thoughts? I want not wealth: I want not power; heaven is beyond my hopes. Then let me stroll through the bright hours as they pass, in my garden, among my flowers; or I will mount the hill and sing my song, or weave my verse beside the limpid brook. Thus will I work out my allotted span, content with the appointments of Fate, my spirit free from care.

—from the Chinese by TAO YUAN-MING.

My love
Is like the grasses
Hidden in the deep mountain;
Though its abundance increases,
There is none that knows.

—from the Japanese
By ONO NO YOSHIKI.

STUDENT SYMPHONY

by Etaoin Shrdlu

SLEEP AND LEARN

Many choice tit-bits have been waited over the border from the land of the free and the home of the brave to the south of us, but this is the best in seven Sundays. Dr. Ralph R. Winn, instructor of Philosophy at City College, New York, claims that the student who sleeps during a class lecture is the one who retains the greatest amount of knowledge. Is that your opinion of Philosophy, Dr. Winn?

STUDENTS RECIPROCATE?

Two hundred students at the Monticello A. and

M. college are said to have signed a petition asking the removal of their president because he declared dancing as "nothing less than a sex orgy" and that all dancers "will go to hell." Well why not?

WORST PUN OF THE WEEK

A student at the University of Indiana says that "Chinese students ought to be good debaters as long as we are right in their line." Even worse than our own recent Daily effort, "Hallow'e'en need is a good five-cent cigar."

POETRY OF SORTS

The Michigan Daily carried this effusion almost worthy of our own Von Dubno:

FLYS

The while I swat
The buzzing flies
I can't restrain
My thoughts and sighs.
I needn't swat
Until I'm blue
If Noah had
Just swatted two.

STUDENT HOWLER

"Drowning," wrote a freshman at Alabama, "is the science of taking enough water into the lungs to keep from living." Sorry, but that doesn't hold water.

NECESSITY IS THE FATHER OF INVENTION

A professor down at Oklahoma was lecturing the class on the stern necessity of shifting for oneself. "Why, when I was 9 years old," he said, "my father decided that I ought to learn to swim so he took me down to the river and tossed me in and I swam out." From the back of the room came a voice, "Yeah, but he probably didn't expect you to."

WESTERN VERSATILITY

According to 25 percent of the co-eds at the University of Western Ontario the modern co-ed is a gold-digger, and is out for all she can get. Yeah, but what we want to know is how much can she take.

LISTENIN'-IN

BY ELENPY

Short Wave Outlook

DURING the last year or so the talk of short wave reception and its merits has been discussed by so many people, and bandied about under so many different pretenses, that a summary of the situation as it stands now is advisable. In the first place let it be understood that short wave reception, despite all the imperfections which may be pointed out, is here to stay. It is an undisputable fact.

If we look briefly at the history of radio, we shall be impressed by the fact that, no matter how good the improvements in its technique have become, it has always been looked upon with a slight amount of scepticism. Even nowadays, when radio is a thing of everyday life, we still look upon it from the point of view of the almost-mysterious, accepting it nevertheless with a great deal of that well-known human complacency.

Now short wave reception is not new. It has been practised and tested for a very long time, too long almost, before it was put on the market for the edification of the world at large. The large manufacturing and broadcasting companies, both on this continent and in Europe, have had experimental stations working on the short waves for quite a while. And now, at last, they think they have the facilities to make these waves commercially harnessable. It is with this view in mind that a large number of new short wave stations have been opened, and that the radio manufacturing industry has gone in for building short wave sets on a large scale.

Now as to reception conditions and possibilities on the short wave bands. With the present type of commercial all-wave receiver the average listener can not, and should not, expect to hear all the short wave broadcasting stations listed in his log. The receiver, no matter what the make may be, is capable of "pulling in" most of the strong European stations with a certain amount of noise attached to them. All this is under favourable conditions. Under adverse conditions there is nothing more annoying than a short wave receiver. The brand of static which it elicits from the air is not the ordinary whistling but a prolonged and vari-pitched humming-whistling-banging variety.

This, however, must be said for the short wave sets. They succeed in getting reception on this continent during the day that is a real treat. Whereas formerly one had to wait for early evening, and sometimes even late night, in order to reach New York by radio receiver, nowadays this is completely changed. A flip of the switch, and presto!—a New York broadcast is heard, and that with such clarity that one wonders whether it is not a local station. In this respect the short waves fulfil more than a need.

Again, let us consider the matter of European broadcasts. To us Canadians this phase of short wave broadcasting has a special significance. It is another link in the chain of imperial ties which bind us to the British Isles. Who has not thrilled to hear His Majesty speak? How many of us have not had some sort of romantic picture conjured up on hearing Big Ben strike the hours? All this is of vital importance.

In a very short while, ten days to be exact, the world will remember its forgotten heroes. The celebration of the Armistice Day rites is always an impressive one. This year, judging by all reports, the broadcasting companies in Canada and the United States will cooperate in bringing to the listener the rites and speeches attendant upon the celebration of this occasion. This year the broadcast will be very imposing, bringing, as it will, speeches from a number of countries all over the world, thereby illustrating the international possibilities of short wave.

MOVIE REVIEW

Cinema de Paris

"THE ROSARY"

FLORENCE BARCLAY was practically unknown when she wrote "The Rosary," but the novel gained immediate favor with the reading public and her name became famous overnight. The love theme which embodied her very soul soon travelled over every Continent and was translated in almost every language. It later formed the basis of many stage productions.

Today it is offered to us as a film, produced by a French Company, and though a book is often said to lose its vividness through the process of filming,

"The Rosary" has not lost much in intensity and poignancy. Through masterly acting and artistic filming, this momentous drama stirs the innermost of our hearts. The famous song "My Rosary" is sung to perfection by Miss Louisa de Mormand, and the difficult part of the painter, who after being blinded by an accidental shot refused stubbornly the love or pity of the woman he adores, is adequately held by Andre Luguet, and in fact the role could probably not be rendered better. Photography is excellent, a great improvement over recent productions, and with the sound effect. A very good film therefore worth seeing in its entirety, for it is a remarkably good story, it is well played, and technically well-built indeed.

C. D.

Correspondence

Inaccuracy Corrected

The following letter was received last night.

Dear Sir,—

To the Sports Editor:

I would like to bring to the attention of the Sports Department of the McGill Daily an inaccuracy to the effect "both Y.M.H.A. water polo teams have for the past few seasons remained undefeated." On November 30 last year, the McGill seniors accomplished a feat which had worried local and out-of-town circles for the past two years, by defeating the Dominion champs in the Mt. Royal Av. tank by the score of 5-4. The Redmen ended an almost two year record of the Hebrews for no lost nor tied games.

Helpfully yours,
Alberta Davis.

NOTICES

(Continued from page 1)

Speakers: E. Elkin, L. Wright, C. Bowman, E. Crutchlow, M. Cantlon, G. Wasserman, G. Atter, J. de Shield, A. Romoff, E. Perrault.

FOUND

A parcel of merchandise from a local haberdashery store. This was left in the office of the Students' Council in September. Apply to Miss Heasley. This is the third and final notice to be published.

Two umbrellas (ladies) in the Union the night of the Freshman Prom. Owners should apply to Miss Heasley.

LOST

A green Parker fountain pen Monday night in Ladies' Check room at the Union. Finder please return to R.V.C. or with Bill Gentileman.

FRESHMEN USHERS

The following freshmen are expected to be on hand on Saturday to help with the ushering at the Montreal-Hamilton game. Please report to John Taylor, the Stadium Manager, by 1.30 p.m. at the Field House:

Annet, Lazurus, Vaughan, MacCallum, Beecher, Derby, Townsend 1, Townsend 2, McGibbon, Anderson, Gilman, McDorum, Hartwick, Heron, Rudnick, Spearman, Frank, Bernofsky, Gibson, Reid, Conway, Ashkanaz, Fitch, McKay, Greenwood, Seltzer, Waters, Mendleson, Guadagni, Hendleman, Graves, Elliot, Fuller, Enwright, Barnard, Greenblatt, Walkely, Rattray, Rennie, Arvin, Spellane, Doran, Gregson, Ein.

It is absolutely necessary that these men be on hand by 1.45 at the latest. Otherwise they will be refused admission.

BIOLOGY SOCIETY

The first meeting of the Biology Society will be held Tuesday evening, November 6 at 8.15 in the main lecture theatre of the Biology Building. Dr. Huskins, head of the newly created department of Genetics, will speak on "Current Trends in Genetics." This meeting is open to all students, and those interested are invited to attend.

BADMINTON

The Graduate students have been allotted Thursday nights from 7.30 to 11.00 for badminton on the R.V.C. courts. Fees will be charged for birds as formerly.

SOCIAL SCIENCE RESEARCH

The Social Science Research Council of New York City offer, for next season, Research Training Fellowships and Grants-in-Aid of Research in the Social Sciences. These are open to men and women who are citizens of the United States or Canada, who hold a Bachelor's degree, and are under the age of 25. The closing date for applications is March 15, 1935. Full particulars may be seen in the Office of the Secretary of the Graduate Faculty in the Macdonald Physics Building.

FELLOWSHIP

A fellowship available for women of the value of £250 a year for three years, is offered for research at Girton College, Cambridge. Applications must be sent to the Secretary before January 1, 1935. Further particulars are in the office of the Faculty of Graduate Studies and Research.

M.W.S.A.A. BADMINTON CLUB

Will all members of the Club who wish to enter a doubles and singles tournament, please sign the list in the Common Room of the Arts Building. Will those wishing to play with spe-

cial partners in the Doubles Tournament please indicate by signing to gether.

R.V.C. '35

Will any fourth year student who is interested in taking part in a charade to be given today at the first meeting of La Societe Francaise, please get in touch with the fourth year representative, Rita De Pierro, as soon as possible. About eight girls are needed. It is not necessary to know a great deal of French to take part.

COMMERCIAL LUNCHEON

The Commercial Undergraduate Society will hold its first luncheon of the year today at one o'clock in the Union Grill. The Society feel fortunate in having obtained Dr. Stephen Leacock as speaker. Dr. Leacock, has not announced his subject as yet but promises it will be of general interest. As there will only be a limited number of tickets sold all Commerce students are urged to obtain their tickets at once. These may be obtained from class officers at the price of 35 cents.

FOR SALE

One copy of Kimball's College Physics in excellent condition. Phone MA. 7939.

SOCIOLOGICAL SOCIETY
The first meeting of the Sociological

Society will take place on Friday, November 2nd, at 8 o'clock. Professor (Continued on page 4)

Poloists Split Twin Bill With Dominion Champs

Juniors Win Smartly 5-1 — Elliott Stars With Three Goals — Last Period "Y" Rally Fails — Seniors Swamped 9-0 — Tafler Registers Five Counters

IN LAST night's scheduled water polo fixture McGill squads were able to secure half the spoils in two one-sided affairs against Y. M. H. A.'s husky mermen. The Red juniors swept through the blue outfit's opposition to score a 5-1 victory in the opener while the tables were turned in the senior game which Y.M.H.A. took easily by a 9-0 count.

The juniors opened the evening auspiciously when, a scant few seconds after the opening whistle, Savage rifled home a smart counter, to give the Reds a lead which was never threatened. Elliott proceeded to put the contest "in the bag" by adding two to the McGill lead with his usual burning shot. The season ended with the Redmen astride a safe three-goal lead.

Elliott Stars
In the second period, however, the "Y" boys unleashed a furious offensive and Fargeson was successful in scoring his team's lone point early in the frame. The Reds covered more closely before the closing bell to make the final score McGill 5, Y.M.H.A. 1.

The Dominion champions were in their best form in the second game and the Red team threatened seriously only once during the play. Individual star of the game was McGill's Chuck Wayland. His stellar performance in the nets stopped several threatening "Y" rallies and saved the Reds further humiliation. In spite of the fact that the McGill team was outwitted by the "Y" natators the team as a whole turned in a strong performance. Several of the Redmen showed flashes of brilliance which should give their less powerful rivals plenty to worry about. Jim Worral, in his first appearance of the season, turned in a strong defensive game, while Skinner, playing in a forward position, was outstanding on the McGill attack. Shapiro and McLean showed their usual steady play in the Red offense.

Tafler Outstanding
First blood went to Tafler of the "Y" when he counted three goals in

Basketball Squad Turns In Good Account In Drill

Don Young Expected to Join Outfit Soon

WITH a turn-out of about thirty, coach Van Wagner put the candidates for the senior basketball squad through a stiff drill yesterday afternoon in the Montreal High Gym. Bowes, right guard on last year's championship team, led the practice.

Two forwards from last season's seconds, Scriver and Wilson, showed up along with their team mates, Levites and Frank Corrigan, who captained the squad. Don Young is expected out when his duties on the gridiron are over. Rumours have it that "Jo-Jo" Smith can dribble a basketball as well as run back kicks at the stadium.

close succession soon after the starting gong. The best of the blue counters came from Tafler's hand on a bullet-like shot to the corner which gave Wayland no chance to save. Stein, playing his first game against his old team-mates, also scored two—"for old time's sake." In the last half Y.M.H.A. again carried the play with McGill fighting gamely from start to finish. The final score was Y.M.H.A. 9, McGill 0.

The line-ups:
Senior
McGill (0) Y.M.H.A. (9)
Wayland goal Silverman
Worral defence Saibil
Shragovitch defence Olanitz
Shapiro half Sohmer
Skinner centre Stein (2)
Bourne forward Tafler (5)
McLean for. Aronovitch (2)

Junior
McGill (5) Y.M.H.A. (1)
Gilmour goal Rabinovitch

McGill II Soccer Team Prepare For City High All Stars

Game Scheduled For Saturday on Upper Field

QUALITY UNKNOWN

AN unusual fixture for the past few years, the McGill II—City High School All Star Soccer game will take place this Saturday afternoon, November 3, at 1:30 p.m. at the Upper Field. This game can rightly be regarded as a real test for the McGill squad and as such is being keenly looked forward to by both McGill soccer followers and soccer enthusiasts in general.

Many of the present members of the McGill teams have played on the various high school teams against their present Alma Mater in the past and it serves as a try-out for both McGill and the boys. The team to represent McGill will be chosen from the following men:

Team as Follows
Grabtree, Kelloway, Layton, Laing, Foggio, Simpson, Buchanan, Cannell, Johnson, Bugden, Baranofsky, Northcott, Luxton, Machin, Thacher, Doubilet, Lynn, Burman, Rankin, Porteous. The team representing the High School All Stars will consist of the following:
Goal: Gill W.H.S.
R.F.S. Cunningham Ver.
L.F.B. Diamond B.B.
R.H.B. Lock C.H.
C.H.E. Cunningham W.H.H.
L.H.B. Clark B.B.
O.R. Gray W.H.S.
I.R. Brand M.W.H.
O.F. White C.H.
I.L. Gammon M.H.S.
O.L. Pitcairn L.H.
Subs: Perowse M.R.H.
Whalen M.H.S.

ENGINEERS

There will be an interfaculty Soccer game with Arts and Commerce today at 4 p.m. on the upper field. All men who can play at all are asked to turn out. The following are specially requested to be present: Burman, Pengelley, Williams, Exelrod, Weinstein, Bercuson, Bourne, Hicks, McBroom, Angel, Rivett, Platt, Chang, Simpson.

Olker defence Sohmer
Percy defence Jackson
Savage (1) half Cooperburg
Wilson (1) centre Goldstein
Elliott (3) forward Fargeson (1)
Powell forward Silverstone

Senior Puck Squad Plays On Saturday

Senior Group Opens Schedule — Redmen Meet Verdun

McGILL TEAM HAS VERY GOOD DEFENSE

Many New Players — Graduates From Junior Ranks

McGILL hockey enthusiasts are anxiously awaiting the faceoff of senior hockey this coming Saturday evening at the Forum. On this night the Senior Redmen, their make-up and ability not very well known, will play their opening game of the current season.

Their opponents will be the strong Verdun team that gave the Redmen such stiff opposition in the playoffs last season. The game is the second of a double header, the first tilt being between Royals and Canadiens. These two games promise to be packed with thrills and a night at the Forum will be well spent.

A fact that seems to have been somewhat overlooked is that the McGill defense will be as strong and probably stronger than last year. The trio of Hollie McHugh, Captain Maiklejohn and Alan Hall had the best defensive record in the circuit last year and they will all be out and ready Saturday. Others who will probably take a turn at the defense are Cliff McKay and Walker. McKay, a recruit from last year's Royals juniors promises to develop into a standout on the rear guard.

Large Turnout

There is plenty of material for the forward positions and the fight for the regular berth is going on hot and strong. Those who are aiming for the centre positions are Elie, Lamb and McQuarrie. Elie, who never seemed to hit his best form last year has been going much better up to date and is sure to be a constant terror to opposing goal-tenders. Lamb, absent from hockey most of last year is skating as fast as ever. The right lane will be the strongest of the three forward positions. Gordon Crutchfield and Tommy Morse are the

McGill Prepares For Tricolor As Game Date Nears

Entrain Friday Afternoon at Three For Kingston

BACK at full strength after last week's victory over the Western Mustangs, Shaughnessy's squad turned out at the Stadium yesterday afternoon to smooth out the kinks in the machine which goes into action against the Tricolour at Queen's this Saturday. Joe Smith and Tom Richert were out unlimbering their respective kicking toes and although Joe's injury has greatly improved, Richert will be depended upon to outkick Munro in the coming tilt.

After their spectacular victory over Western last week, the Redmen still have an excellent chance to secure the laurels this year. Queen's are not an unknown quantity though. On the basis of their recent games they appear to be in full gear and will offer McGill stiff opposition. Whether the Red team will win or not gives rise to interesting speculation.

Entrain Friday

Entraining tomorrow for Kingston Shag will take a squad of about 18 for Saturday's fray. They are all in the pink of condition and will give a good account of themselves. The future of the Intercollegiate race rests to a large extent on Saturday's fixture—so go to it Red team.

boys who will probably hold down this side. Young Crutch was one of the Red stars two years ago but did not attend college last year. Morse seems to be getting more confidence with every practice and it is the prophecy of those who are supposed to know

Under The Sport Light

By A. D. S.

AS FORESHADOWED by this observer a fortnight ago, a decided improvement has been noticed among the Red booters of the pugkin, thanks in large measure to Tom Richert's masterly punting. Lou Buschin, middle wing, branched out as a placement kicker de luxe, when opposing the Mustangs last Saturday, by lofting two beautiful placement kicks over the bars to help in the debacle.

AGAIN we indulge in further statistics based on games played last Saturday. An alumnus, recently writing this department, stated that McGill teams had the edge in the kicking game over their American rivals. The following table speaks for itself.

Team	Average Distance of Kicks
Navy	51 yards
Syracuse	51 yards
Harvard	50 yards
Manhattan	48 yards
Army	46 yards
Purdue	46 yards
Brown	46 yards
N.Y.U.	44 yards
Yale	42 yards

We have chosen these statistics at random. It is not that our selections contain only those American colleges which have excelled in the kicking department, as is evidenced by the fact Pennsylvania and Carnegie Tech averaged 48 yards apiece while the western teams averaged well over 44 yards on an average.

WITH the Red front line performing like a proverbial stone wall—making seven first downs to Western's two, all is well on the offensive and defensive as far as the advance guard is concerned. So, all in all, the Redmen give every promise of giving an excellent account of themselves in the intercollegiate play-downs and a healthy chance at the championship mug or whatever it is that connotes the best team in Canadian college circles.

LIONEL PRETORIA ("Big Train") Conacher, who bears an international reputation as hockeyist, footballer, boxer, wrestler and tennis expert, though still in the public spotlight after thirty-four years' existence, threatens to revolutionize Canadian football at the point where our own Shag left off. In the November issue of CANADIAN MAGAZINE, Conacher unburdens himself of some constructive chatter on the future of the game in this country. His suggestions for taking the monotony out of Canadian rugby and giving the game a greater halo of spectacular play appear quite reasonable and of such a character as to be worthy of a trial in the Intercollegiate schedule next fall.

EXPURGATED details of the Canadian hockey migration Europewards is fairly well covered in the current issue of MACLEAN'S MAGAZINE. Perhaps some day a courageous writer will give the public the real "low-down" on so-called amateur hockey, and when this press scoop is published, we want to have advance information of its appearance so as to make certain of securing a copy of the issue in question.

SEEMINGLY, great passers—like poets—are born, not made. Up-to-date coaches realize that they cannot teach any player to pass more than you can turn a baseball player into a pitcher, so says Robert Zuppke, famous Illinois coach, and he ought to know whereof he speaks. The coach can improve a passer, but the latter must have native ability as a fundamental. Some potential passers can throw well but with no control of direction or distance; others have direction and distance, but throw the ball so as to telegraph its direction.

SO, TOO, with kickers. A coach may improve them, but all the form in the world will not enable a kicker to punt sixty yards unless he has the requisite muscular resiliency and leverage. Football is a mental exercise expressed physically and the greatest players is the one who can carry a nimble brain faster than anyone else to the place of action and execution. Zuppke states the only infallible football system is to have a team which can run faster, tackle harder, think better, jump higher, throw better and kick further than their opponents.

THE ideal coach balances offence and defence; both are needed to produce a winning combination. It isn't the play that is so important, —it is the execution. Verily, readers, football players are born not made to the extent of physique, vitality and aptitude, remembering that football is more than a game; it is a spirit.

33 CHARITIES COMBINE IN ONE APPEAL...

Economy in giving
Economy in getting

THIRTEEN years ago the Federated Charities were organized to co-ordinate the work of 33 different social service agencies. Thirty-three individual appeals were replaced by one united appeal, and for the first time the people of Montreal were given a clear, comprehensive picture of the nature of the work which had to be done and which they were being asked to support.

Experience has shown the wisdom of Federation. The launching of 33 individual appeals was necessarily more expensive than the launching of one appeal. By cutting the costs of organization a material saving was effected. Federation also eliminated overlapping in the activities of the individual agencies. It resulted in co-ordinated and consequently intensified effort.

The people of Montreal have, in the past, supported the Federated Charities generously. Today, the need is as great, if not greater than ever before.

A vast number has to be taken care of for whom Government relief makes no provision... the aged and infirm, the sick and the helpless, the underprivileged child who is at the mercy of every evil influence, the delinquent on his release from prison.

It is important to note that the work of the Federated Charities supplements—it does not duplicate Government relief. Government unemployment relief funds can only be used to provide for the able-bodied unemployed. The care of the others depends on private philanthropy... on YOUR generosity. Will you help?

Federated CHARITIES

13TH APPEAL

OCT. 29 — NOV. 5

CANADIAN TRAVEL

(Text of the address delivered by D. Leo Dolan, director of the Canadian Travel Bureau, before the Canadian Club of Boston.)

It is indeed a great privilege to come to Boston, on an occasion of this kind, and to receive, from so many Canadians, such a delightful welcome. It is even a greater pleasure to realize that, though you are now living in another country, your interest in Canada still remains intense and your desire to further the development of your home land is as potent, now, as it was during the years you were resident in the Dominion.

Boston, if I may be permitted to say so, is one of the typical Anglo-Saxon cities of this Continent and, tonight, though speaking in a foreign country, there is about this gathering that characteristic Canadian atmosphere that makes me feel very much at home.

Outstanding Record

This Canadian Club has had an outstanding record of achievement. It is one of the most virile and vigorous organizations of its kind in the United States and I think I am safe in saying that the service you have rendered to your native land during the years of your residence here, has been deeply and sincerely appreciated by your kindred in the Dominion.

It is, perhaps, most fitting, too, that there should be a Canadian Club in the City of Boston and its membership indicates, all too clearly, that for many long and lean years there was a steady movement of our young Canadian people into your great cities into the busy factories and into the wide fertile areas of this Republic. That emigration of our people was, in a large measure deeply regretted but, at the same time, I think there has been a redeeming feature which has become all the more potent with the passing years. You, who are gathered here tonight, walk and talk as citizens of another country and yet are members of the great family of our closest neighbour. Your very presence in this Republic, has been no small factor in bringing closer together the peoples of these two countries and to establish upon this North American Continent a peace-loving and contented citizenship.

Message From Home

I come to you tonight with a message from your home land, to tell you of a new movement which has started in Canada to promote and develop the immense recreational resources of the Dominion. I shall endeavour to outline to this Canadian Club of Boston, ways and means by which this organization may, once again, render a valuable service to the land of your birth. Within the last year Canadian public men, Canadian newspapers and the Canadian people, generally, have come to realize the potentialities of

this Tourist industry. Canada is determined to write its name in letters large upon the travel map of the world. With that idea in view the Federal Government has organized, under the Department of Railways and Canals a new organization known as the Canadian Travel Bureau. This new branch of the Government is to be the sales organization of Canada's recreational resources. We will endeavour to make known, first to the people of this Continent, and then to the people of the far flung Dominions, the charm and attraction that Canada has, in such abundance, for the travel minded people of the World.

Created Organization

I think, perhaps, I should tell you how this organization came into being. For years the Tourist industry of Canada went forward with scant recognition from Governments or from the people generally. This circumstance existed in the days when the Tourist industry, in common with every other industry, seemed to need little or no serious attention. The economic position of the World was flourishing, people were spending money lavishly and the tourist trade benefited despite the lack of interest or lack of organization. Then came the period of economic depression and whereas 1929 Canada valued its Tourist industry at \$300,000,000, the Government and the people suddenly awoke, in 1933, to discover that its value had dropped to \$117,000,000. The need for constructive action was apparent. However, a very active, aggressive and progressive Member of the Canadian Senate focused the attention of the country upon the importance of this Tourist industry. Honourable W. H. Dennis of Halifax, arose, one day, in the Canadian Senate, and made a speech in which he urged definite and effective action to promote and develop Canada's tourist attractions. That speech caught the imagination of the Canadian people; it aroused the interest of the press of Canada; it convinced the public man of Canada that there was a field for fruitful endeavour and within a comparatively few weeks the Government of Canada accepted the recommendations of the Special Committee of the Senate, established the Canadian Travel Bureau and put this organization under the administration of Hon. Dr. R. J. Manion, Minister of Railways and Canals.

For the first time in the history of Canada we have a Government organization operating to co-ordinate the tourist services of our country and to develop, in what I hope will be an efficient manner, the many and varied

attractions which the Dominion has to offer to the vacationist.

ASTOUNDING FIGURES

To stress the importance of this Tourist industry, tonight, I must, of necessity, deal in some figures. When I tell you that the people of the United States spent on travel, last year, according to a summary of a New York Trust Company, the astounding figure of \$5,900,000,000 (five billion dollars) I think you will come to more definite realization of the importance of the Tourist Traffic from an economic standpoint.

Of the five billions of dollars there is spent with the railways and steamships, the bus and air lines, and the garage and service stations One Billion of dollars annually; hotels, cafes and lodging-houses receive another billion; retail stores, catering particularly to the tourists, receive another billion two hundred and fifty millions of dollars; theatres and amusements four hundred millions; confectioners, etc., three hundred millions of dollars.

Canada Attractive

Canadians believe, and I think with some justification, that we have something in our country, which should secure a fair percentage of this five billions of dollars expended on travel. I think we should attract some of this money because I am confident that Canada has to offer the vacationist, attractions which are so varied and so interesting that America's great army of vacationists need not leave this continent to enjoy a holiday that meets the demands of the most fastidious traveller.

May I give you, for just a moment, a brief word picture of Canada's immense recreational resources? It has been said before, and I think it will bear repetition, that Canada is a land of great distances. It is a land of vast unexplored territory, where one may travel in comfort, away from the hurry and congestion of your cities and enjoy the beauty and grandeur of a land richly endowed by nature. If a vacationist desires a section of country that has a bracing and invigorating climate, Canada can provide not one but a hundred sections where that desire can be fulfilled. If it is an inspiring panorama of mountain, lake and sea-shore or a section of the world hallowed in historic memories then Canada, too, can meet the needs and wishes of that type of vacationist. If a disciple of Isaac Walton and he wishes to indulge in his favourite sport, whether it be on a trout stream or a magnificent salmon river, or expansive lakes where bass and muskie are the lure, if the desire is even for deep-sea fishing with tuna and other type of game fish, then Canada, too, is a land unexcelled for that type of sport.

Hunt Big Game

If the vacationist is a big game hunter who desires moose, deer, bear, mountain sheep or goat, grizzly, caribou or elk, I say to you in all sincerity, that Canada is a hunting ground unexcelled in its quantity and its quality of big game.

In brief, Canada is a land of bountiful streams, unequalled in any part of this world, and of picturesque forests that are far from being depleted of the trophies so eagerly sought after by big game hunter. To the fisherman and the hunter Canada offers something unique, something he cannot secure to a like degree in this or any other section of the world.

I want to take you, for just a moment, right across the Dominion of Canada, with a brief reference to the various provinces of the country.

Nova Scotia, "Canada's Ocean Playground," immortalized by Longfellow in his epic poem, Evangeline, is a territory well known to the vast majority of my audience here tonight. We have just completed a most delectable dinner, the main course of which was moose meat provided for this function by two of your estimable members, who a few days ago were sojourning in the big game territory of Yarmouth County. I think, as we ate this product of Nova Scotia here tonight, there

C. O. T. C. Orders

McGILL UNIVERSITY CONTINGENT

(148th Bn. C.E.F.)

Canadian Officers Training Corps

CONTINGENT ORDERS Part 1. Nos. 25-29

By Lieutenant-Colonel E. B. Q. Buchanan, Officer Commanding THURSDAY, 25th October, 1934

Oct. 18. A Platoon — Organization and Weapons—Major J. S. Brisbane ED.
Oct. 20. Protection—Major H. D. Pennell.
Oct. 21. Care of Arms—Lieut. G. A. Grimson.
Oct. 25. Duties of Platoon Commander.

was, undoubtedly, a desire in the hearts of all of us, to have been with Mr. Goudey during the days he spent in the autumnal tinted forests of his native country.

Here is a province rich in historic traditions, the arena where in early days, issues of greatest importance to future generations on this continent, were decided. I think, particularly of Port Royal, now Annapolis Royal; of Grande Pre, the scene of Longfellow's immortal poem; of Champlain, De Monts; of Nicholas Denys. There is hardly a hill or valley or lake or island in Nova Scotia that does not hold a story of sacrifices, heroism and devotion in this most attractive province. Here there is a variety of valley, of mountain and of sea-shore, all of which are easily accessible.

Now I come to the province of New Brunswick of which, perhaps many of you have heard me speak on another occasion. Who is not thrilled at the grandeur of the St. John River, so familiarly referred to as the "Rhine of America?" Who has not heard of New Brunswick's majestic salmon streams, acclaimed as the finest in the world the Restigouche, Miramichi, Upsal-quitch, Kodgwick, St. John and a dozen others?

Sports Notices

(Continued on page 3)

10th, please get in touch with Gear McEntyre at FI 9035 as soon as possible.

WRESTLING

Wrestling practices are held in the Montreal High gym Monday, Wednesday and Friday, afternoons from 5 to 8 o'clock. No previous experience is necessary, and anyone interested is urged to put in an appearance at once.

BOXING

Boxing practices are being held in the Montreal High gymnasium from 5 to 6 p.m. on Tuesdays and Thursdays. Coach Bert Light is giving classes in physical exercise as well, and urges all interested to turn out.

Hockey

Hockey hours at the Forum:
Mondays—5-6.
Tuesdays—130-230.
Wednesdays—130-230.
Thursdays—130-230.
Fridays—5-6.
Saturdays—1230-130.

FRESHMAN RUGBY

The Freshman squad will turn out tonight at the Stadium at 530 sharp for a scrimmage against the Intermediates. In addition to those who were out last night the following are requested to turn out: D. Chadwick, Thornton, Ross Lewis, Bob Anderson, and Ken Wilson.

FOOTBALL

All footballers who drew equipment and took lockers in the Field House but are no longer actively participating with the squads must turn in their equipment and their lockers at once to some member of the Field House staff or to their team manager as it is still recorded against them.

ARTS FOOTBALL

The following are especially requested to turn out to play commerce today:

Bourne, Wilson, Amaron, Mislav, Eastman, Kalfas, Alexopoulos, Webber.

Soccer

The Arts Commerce team for the interfaculty match today will be made up of the following men: Baronofsky, Cannell, Crabtree, Denton, Doubillet, Hodgson, Johnson, Laing, Layton, Lowe, Luxton, Prince, Porteous, Stewart.

Price, Stevenson, Morgan, Cohen, 'Slug' Montgomery.
And all others who have turned out before, but whose names are not known.

BASKETBALL PRACTICE

Practices will be held Mondays, Wednesdays, and Fridays at five in the Montreal High Gym for members of last year's teams and candidates from Medicine and the Graduate School. All other candidates will turn

their gaze towards the future where another standout team is in the making. Additional candidates are expected to try out after the end of the rugby season, chief of these being Tommy Riddell and Fred Wigle. Three more practices will be held before Saturday night. These remaining practices are very important and everybody must be out.

out Tuesdays and Thursdays at the same time.

INTERFACULTY RUGBY

All men playing today in the Arts Commerce game, will turn out on the campus field at three o'clock.

ENGLISH RUGBY

The English Rugby squad will turn out this afternoon on the campus field at 4.45. Practice will be held tomorrow at the stadium.

This joyous young couple, quite snappy. Have discovered a way to be happy. Just ask for a smoke. They consider a joke. You must say "BRITISH CONSOLS" Old Chappie!
